

Outdoor Classroom Fire Risk Assessment

Risk Assessment – Record of significant findings		
Risk assessment for:	Outdoor classroom @ Walton Firs	Assessment undertaken by: Richard Hardy – Facilities Manager Qualifications: Fire Assessment CPD

Step 1 – Identify fire hazards		
Sources of ignition: N/a	Sources of Fuel: Timber.	Sources of Oxygen: Atmosphere

Step 2 – People at Risk
Site Staff, Visitors and Campers.

Step 3 – Evaluate, Remove, Reduce and protect from risk	
(3.1) Evaluate the risk of the fire occurring.	Low Risk for all unless, campers or Visitors bring sources of ignition. I.e. fires campfires, BBQ's or Cooking equipment under the shelter.
(3.2) Evaluate the Risk to people from a fire starting on the premises.	Low risk to site staff, campers and visitors as all sides are open s. It is a small single storey shelter structure.
(3.3) Remove and reduce the hazards that may cause a fire.	Policies in place to keep naked flames out of the shelter no exceptions. No smoking and cooking in the shelter.
(3.4) Remove and Reduce the risks to people from a fire.	Following site rules, policies and procedures.
