

Frisbee golf – Risk Assessment

The risk assessment ratings for each identified hazard, the score for the likelihood of its happening is multiplied by the score of the severity of the injury.

(For example, likelihood 2 multiplied by Severity 5 = 10 medium).

The Risk assessment is to identify hazards, value the risk and the potential harm and whom to. Have an action plan to prevent the risk and a final risk value.

Hazard	Who	Existing Risk Value	Action to prevent	New Risk Value
Slips, Trips & Falls	Participants Instructors Leaders	5*5=25 High	Be made aware of any steps or objects on the ground. Shoe laces to be tied up. Clear Briefing/Instructions, full understanding. Appropriate Footwear to be worn. Recommend No running in the area. No climbing fences. No climbing Trees. Paper cuts, avoid throwing pieces of paper or passing in a way that may cause injury.	3*2=6 Low
Failure of equipment	Participants Instructors Leaders	5*5=25 High	A weekly inspection is done by staff. Before use inspection done by staff. Any damaged items put out of use.	1*5=5 Low
Failure of structure	Participants Instructors Leaders Spectators	5*5=25 High	Arborists report on tree elements. Weekly visual inspection from ground level by qualified/trained staff. Before use inspection done by staff.	1*5=5 Low
Entanglement	Participants	5*5=25 High	Ensure all Long hair is tied up/back as appropriate. Clear Briefing/Instructions, full understanding. No climbing trees.	2*4=8 Med
Falling objects	Participants Instructors Leaders Spectators	5*5=25 High	Clear Briefing/Instructions, full understanding. Being aware of flying frisbees. Make sure participants are not throwing towards anyone. Arborists report on tree elements.	4*2=8 Med
Behavioural Problems	Participants Instructors Leaders	5*5=25 High	Clear Briefing/Instructions, full understanding. Yellow/red card system. (or similar) Ratio's 12:1 maximum. Site behavioural policy.	2*5=10 Med
Wildlife	Participants Instructors Leaders	5*5=25 High	No food permitted in the area. Area checked before use. Allergies (controlled by group leader) Pest control where appropriate.	4*1=4 Low
Weather	Participants Leaders Instructors	5*5=25 High	Activity not to be used in lightning weather. Activity not to be used in strong winds. Clear Briefing/Instructions, full understanding. Appropriate lighting when required.	1*5=5 Low
Environment	Participants Leaders Instructors	5*5=25 High	Floor covering to be made safe, removal of any objects that cause hazards as appropriate.	1*1=1 Low

Covid-19 Instructor Contact	Participants Leaders Instructors	5x5=25 High	2m distance maintained for instructing Where not possible, full medical face shield provided.	5*2=10 Med
Covid-19 Equipment Contamination	Participants Leaders Instructors	5x5=25 High	Equipment disinfected in between use	5*2=10 Med
Covid-19 General Contact/Arrival	Participants Leaders Instructors	5x5=25 High	Hand Sanitiser, gloves and masks made available to participants and staff before and after activity 2m social distancing maintained	5*2=10 Med

This risk assessment is written in accordance with the operating process and procedures.
