

High All Aboard - Risk Assessment

The risk assessment ratings for each identified hazard, the score for the likelihood of its happing is multiplied by the score of the severity of the injury.

(For example, likelihood 2 multiplied by Severity 5 = 10 medium).

The Risk assessment is to identity hazards, value the risk and the potential harm and whom to. Have an action plan to prevent the risk and a final risk value.

Hazard	Who Existin		Action to prevent			
		Risk				
		Value				
Slips, Trips & Falls	Participants	5*5=25	Helmets to be worn always inside the compound.	3*2=6		
(Ground height)	Instructors		Be made aware of any steps or objects on the ground.			
	Leaders	High	Shoe laces to be tied up.	Low		
			Appropriate Footwear to be worn inside compound.			
	Spectators		Clear Briefing/Instructions, full understanding.			
			No running in the compound.			
Slips, Trips & Falls	Participants	5*5=25	Helmets to be worn always inside the compound.	2*5=10		
	Instructors		Be made aware of any steps.			
	Leaders	High	Shoe laces to be tied up.	Med		
			Appropriate Footwear to be worn inside compound.			
	Spectators		Clear Briefing/Instructions, full understanding.			
	'		No running in the compound.			
			Participants leave the ground attached to safety devices/Top			
			rope systems. Under supervision of qualified/trained personnel			
			only.			
			Keeping activity area clear when in use.			
			6ft Fenced area for compound.			
Failure of equipment	Participants	5*5=25	Equipment is tested and inspected at manufacturing/Purchase.	1*5=5		
	Instructors		A 6-monthly inspection by qualified inspectors.			
	Leaders	High	A weekly inspection is done by qualified/trained staff.	Low		
			Before/During use inspection done by instructor.			
Failure of structure	Participants	5*5=25	Annually structure inspection by external accessors or qualified	1*5=5		
	Instructors		persons.			
	Leaders	High	3 Monthly inspection on structure by qualified staff.	Low		
			Weekly visual inspection from ground level by qualified/trained			
	Spectators		staff.			
	'		Before/During use inspection done by instructor.			
			6ft Fenced area for compound.			
Entanglement	Participants	5*5=25	Ensure all Long hair is tied up/back as appropriate.	2*4=8		
J			Non-loose clothing to be worn.			
		High	Helmets to be worn always inside the compound.	Med		
			Clear Briefing/Instructions, full understanding. (not to put any			
			body parts though elements.)			
Falling objects	Participants	5*5=25	Helmets to be worn always inside the compound.	5*2=10		
	Instructors		Clear Briefing/Instructions, full understanding.			
	Leaders	High	6ft Fenced area for compound.	Med		
	Spectators		Keeping activity area clear.			
			Arborists report on trees in the surrounding areas.			
Behavioural Problems	Participants	5*5=25	Clear Briefing/Instructions, full understanding.	2*5=10		
-	-		_ =	1		
	Instructors		Yellow/red card system.			

		Group leader must be present to control group behaviour.	
		Site behavioural policy.	
Participants	5*5=25	No food permitted in the compound.	4*1=4
Instructors		Compound checked before/during use.	
Leaders	High	Allergies (controlled by group leader)	Low
		Pest control where appropriate.	
Participants	5*5=25	Activity not to be used in lighting weather.	1*5=5
Leaders		Activity not to be used in strong winds.	
Instructors	High	No running in the compound.	Low
		Clear Briefing/Instructions, full understanding.	
		Appropriate lighting when required.	
Participants	5*5=25	Being aware of surroundings.	1*1=1
Leaders		Floor covering to be made safe by raking the activity and	
Instructors	High	removing objects that may cause any hazards.	Low
		Activity is built on a slop to maintain good drainage.	
Participants	5*5=25	1m distance encouraged	2*5=10
Leaders		Where not possible, face masks to be worn at peoples	
Instructors	High	discretion	Med
Participants	5*5=25	Hand Sanitiser made available to participants and staff before	2*5=10
Leaders		and after activity (toilet block/welcome barns)	
Instructors	High	1m social distancing encouraged	Med
