

Push Ball – Risk Assessment

The risk assessment ratings for each identified hazard, the score for the likelihood of its happing is multiplied by the score of the severity of the injury.

(For example, likelihood 2 multiplied by Severity 5 = 10 medium).

The Risk assessment is to identity hazards, value the risk and the potential harm and whom to. Have an action plan to prevent the risk and a final risk value.

Hazard Who		Existing Risk Value	Action to prevent		
Slips, Trips & Falls	Participants Leaders	5*5=25	Be made aware of any steps or objects on the ground. (Remove if possible)	2*5=10	
	Instructor	High	Shoe laces to be tied up. Appropriate Footwear to be worn. Clear Briefing/Instructions, full understanding. Participants are to be made aware to take care not to run into each other. It is the Instructor/Leaders responsibility to use appropriate games for the group. It is the Instructor/Leaders responsibility to use appropriate areas and aware of surroundings. Participants must NOT stand or climb on top of the push ball.	Med	
Failure of equipment	Participants Leaders	5*5=25	Recommended not to run at the push ball. A bi-weekly inspection is done by qualified/trained staff. Before use inspection done by staff.	2*5=10	
	Leaders	High	Participants must NOT stand on top of the push ball.	Med	
Entanglement	Participants	5*5=25			
		High	Clear Briefing/Instructions, full understanding.	Low	
Falling objects	Participants Leaders	5*5=25	Site Arborists report on trees obtained.		
	Spectators	High	Buildings Checked periodically.	Low	
Behavioural Problems	Participants Leaders	5*5=25	Clear Briefing/Instructions, full understanding. Site behavioural Policy.	2*5=10	
	Spectators	High	Recommended low numbers of participants for control. (decision is down to the leader's ability) Group leader must be present to control behaviour issues.	Med	
Wildlife	Participants Leaders Spectators	5*5=25 High			
Weather	Participants Leaders	5*5=25	Activity recommended not to be used in strong winds. Activity recommended not to be used in lightening weather.	Low 1*5=5	
	Instructors	High	Activity recommended not to be used in wet weather. (decision is down to the Instructor/leader's discretion) Recommended no running. Clear Briefing/Instructions, full understanding. Appropriate lighting when required.	Low	
Environment	Participants Leaders	5*5=25	Floor covering to be checked and cleared by Instructor/Leader. Use of appropriate areas, to be decided by the	1*5=5	
	Instructors	High	Instructor/Leader.	Low	

Covid-19 Instructor Contact (Positive)	Participants Leaders Instructors	5x5=25 High	1m distance if instructed Where not possible, face masks to be worn	5*2=10 Med
Covid-19 General Contact/Arrival			Removed	

This risk assessment is written in accordance with the operating process and procedures.
